We are excited to bring you the 2020 Canadian Gaming Summit!

The Canadian Gaming Association (CGA) is a national trade association that works to advance the evolution of Canada's gaming industry. The association's mandate is to promote the economic value of gaming in Canada; use research, innovation, and best practices to help the industry advance; and create productive dialogue among stakeholders. Our premier event is the Canadian Gaming Summit, a conference and exhibition developed by the industry for the industry. Our intention is to provide informative and relevant panels, discussion, and education alongside multiple networking opportunities.

This year the Summit moves to Toronto, Ontario and the timing couldn't be better. In Spring 2019, Ontario's government released its first budget which contained several new gaming initiatives that will allow the government to take strong steps towards protecting consumers while expanding choice.

Given that Ontario is the largest province in Canada and the first to license and regulate offshore online gaming, we look to feature industry experts to discuss this move and its importance and the expectations for the process. This is a clear example of transforming the customers' experience, the theme for the 2020 Summit.

In addition, the 2020 Summit will offer:

- Support to vendors to meet customers: we will again offer a dedicated day and space as well as multiple networking opportunities for more interaction
- Improved floor: the Summit's trade show floor features extensive meeting spaces and more activities to meet with your customers

- More time to connect: daily breakfast, lunch and coffee breaks as well as cocktail receptions on the floor to network and connect with potential customers
- More focused education and training sessions: specialized programming and speakers to appeal to a broader audience
- Uniquely positioned session rooms: located on the trade show floor for more interaction opportunities

Our 2020 sponsorship program consists of a range of fully integrated packages that includes exposure before, during, and after the Summit, through but not limited to the Canadian Gaming Business magazine and the Gaming Business e-newsletter, all priced at a significant discount for CGA members.

As our industry continues to evolve, the Canadian Gaming Summit will strive to provide multiple creative ways for the industry to reach target clients and prospects.

We look forward to your exhibit/sponsor support of the 2020 Canadian Gaming Summit, and to a great conference in Toronto!

Sincerely,

Paul Burns

*President & CEO of Gaming Association
Chair of 2020 Canadian Gaming Summit*

2020 Summit Education Program

The Canadian Gaming Summit takes great pride in its overall education program and consistently delivers the industry's most pressing issues presented by industry leaders. For 2020, the Summit will take a deeper dive into a number of timely topics and will also create a new and unique way for them to be delivered. To make it easier on our valued delegates and to create a more intimate overall setting with less session overlap, the majority of the sessions in 2020 will occur inside our education theatres set up in the main hall at the Metro Toronto Convention Centre (MTCC). The main hall will also be the location of all other planned Summit activities including; trade show floor/exhibits, meals, keynote and plenary presentations, roundtable discussions, breaks, networking receptions, delegate meeting zones, and more.

Please note that the education sessions occurring inside the main floor education theatres will be delivered in increments of 30 minutes/per + a 5-minute Q&A. This shorter time allotment will allow for more condensed presentations which will open up more time for delegates to interact with our valued exhibitors as well as their industry peers.

Keeping the focus on the customer in mind, the 2020 Summit education program will feature presentations by leading experts on iGaming, sports betting, new technologies, casino/online integration, loyalty/rewards, mobile gaming, lottery, data/analytics, regulatory and legal, finance, and community gaming, among others.
